

A UNIQUE EXPERIENCE FROM

NY-LON

LOUNGE BAR

AT THE O2

WELCOME ONBOARD

NY-LON Lounge Bar is open to everyone from Tuesday to Sunday* from 4pm until late. Whether you're hosting an intimate pre or post-gig get together, a champagne reception, a business meeting, an exclusive party or an exclusive VIP event, NY-LON can accommodate up to 300 guests.

NY-LON offers the truly unique combination of a relaxing, uplifting environment and first class service.

It's all made possible by the partnership between Virgin Atlantic and Delta Air Lines®.

Inspired by transatlantic flights connecting New York and London, NY-LON lets you enjoy these two great cities in one stylish space at The O2.

*Mondays on event nights only.

TURBINE LOUNGE

In our main Turbine Lounge, the glamour and excitement of transatlantic jet setting combines with the cutting edge style of New York and London. Bringing an extra special buzz to your drinks and celebrations.

NEW YORK AND LONDON ON THE MENU

The NY-LON menu is inspired by these iconic cities, with New York style cured meats and London plates like the Billingsgate fish pie.

The drinks menu features a unique collection of cocktails created by NY-LON's head mixologist and features twists on classic cocktails such as the Manhattan, Whiskey Sour and Tom Collins.

These are served alongside an innovative range of aviation themed cocktails including the Transatlantic, Flying Lady, Maiden Voyager and Atlanta.

VIP LOUNGE

With the atmosphere and intimacy of an exclusive venue, NY-LON's VIP Lounge is a private space tucked away from the buzz of the Turbine Bar.

The lounge features four booths, each one themed by a key transatlantic destination: Atlanta, London, Los Angeles and New York.

To make our VIP guests feel just that little bit more special, each booth is fitted with a push button, airline style call system, for personal drinks and service.

The four 6-8 seater booths in the VIP Lounge can be reserved individually, or alternatively the whole VIP area can be reserved for up to 32 guests.
