Do something different. Climb to the top of the world's most popular music, entertainment and leisure venue.

A 90-minute climb experience you won't forget. Zip up your climb jackets. Pull on your boots. Hook up your harness. Then make your way up the south face of one of the most striking buildings in London skyline. You can head up in groups as big as 30. Leading the way will be our expert climb guides to share interesting facts from The O2's unique architecture to its famous visitors.

At the top, you'll be standing 52 metres above the stars, with 360-degree views across this historic part of London. You can spot famous landmarks up to 13miles away. Head up in the daytime. Climb under a sunset sky. Or make your way over at twilight.

GET UP AND OVER IT

Climb at your favourite time

Daytime Climb

Head up in the daytime and take in the view. When it's clear, you can spot landmarks up to 13 miles away.

Sunset Climb

Climb up as the sun goes down. And making this experience even more out of the ordinary, you'll be watching day turn into night as you walk alongside the meridian line.

Twilight Climb

Scale the roof in moonlight. You'll be surrounded by twinkling lights and stars and, if you climb on a show night, you might even hear what's happening underneath.
